

## Sun Fook Kong Summer Internship Programme 2013

In order to bring up the outstanding talents in the construction industry, Sun Fook Kong organizes the internship programme every summer. This year, the project team of "Shatin to Central Link Contract no. 1101 - Ma On Shan Line Modification Works" recruited 4 interns with different backgrounds. The interns would receive on-site trainings and gain experience to work in a construction site.

Mr. Chan Yat Wah, Project Manager of the Group briefs the site activities to the interns.

Sun Fook Kong strives to serve the community and emphasizes on the future development of our society. The internship programme aims to enhance the young people's understanding on construction industry so as to attract them to join the industry; and in the meantime train up more talents for the community.

The internship programme allows the senior management to instill messages to the trainees. Mr. Jimmy Shing, the Senior Project Manager of Sun Fook Kong often reminds the interns, "Safety is the most important element in construction sector. Our responsibility is to plan an effective and safe schedule of work and to work it out in practice. All of us are required to address safety seriously regardless which position we are, as keeping our labors safe is always ranked above site progress or monetary gain."

Sun Fook Kong has arranged different trainings for the four individuals according to their wills and their abilities, giving them a chance to apply the knowledge they acquired and to assist them going towards their goals. Huang Mian, Fung Kai Hang, Tung Chi Hoi and Wong Chark Yu are students taking Civil Engineering in the University of Hong Kong, Architecture in Chu Hai College of Higher Education, Engineering in City University of Hong Kong and Civil Engineering and Environmental Engineering in the University of Hawaii at Manoa respectively. During the training period, the interns learnt about site management, construction drawings, safety planning, contract formulation and other related aspects.

The interns left the programme with some special moments. One of the interns, Fung Kai Hang expressed, "It is unforgettable to host morning briefing section for the workers. The workers' working attitudes are passionate and they will never hesitate to voice their opinions. I discover that two-way communication is the key in speeding up the working process as it allows us to learn more about the physical condition of the sites." Other than good communication with the labours, it is crucial to keep contact with the client, Wong Chark Yu expressed, "We always have to maintain close liaison with our client and various stakeholders to ensure our work will not affect the daily operation of MTR, as well as to minimize the negative impact to the public that caused by construction activities."

The project team and the interns had established a close relationship and the interviewing atmosphere is relaxing.

Besides, the 4 Interns gained a lot after participating in the programme. Huang Mian said, "Among the 9 stations and Shek Mun Playground under the contract, some of them have just started while some of them are close to completion, which allows us to observe the early, middle and the late stages of the construction process. I am content with this all-rounded learning and experiencing opportunity." Moreover, the interns have established genuine friendship, Tung Chi Hoi said, "Not only the managers and the colleagues, the other interns have also taught me a lot. Team spirit is vital in all projects; different parties have to get hand in hand in order to complete the goals."

Sun Fook Kong started undertaking the "Shatin to Central Link contract no. 1101 - Ma On Shan Line Modification Works" since July, 2012, its scope of works include the extension of station platforms and roof, the enhancement of electrical and mechanical facilities, the Automatic Platform Gates enabling works, the extension of overrun viaduct at Wu Kai Sha Station, the retrofitting of noise enclosure at Tai Wai Station and viaduct near Fok On Garden and the repositioning of Shek Mun Playground. The internship programme has widened the interns' horizon; they have also revealed that the fame in construction sector is no longer built up by the knowledge and the monetary gain, but by safety, humanity, collaboration and communication instead.

In the near future, Sun Fook Kong will grasp more chances for training the talents and work hard for a better future for the community.

## Sun Fook Kong Actively Participated in the "Construction Safety Week 2013"

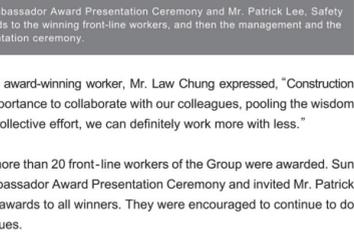

Sun Fook Kong actively joint the "Construction Safety Week 2013" which was jointly organized by the Development Bureau and Construction Industry Council. The 5 days event started on the 27 May, 2013 with the theme of this year, "Zero accident - Zero harm".

Sun Fook Kong workers from different sites took part in the "Zero Accidents Ambassadors Commendation Ceremony" through the broadcasting.

"Construction Safety Week-Zero Accidents Ambassadors Commendation Ceremony" was the kickoff of the series of events. It took place at the Kai Tak Development Area. The Chief Executive led the pledge, "One-minded, united, for ourselves, for our families, having zero accident, enjoy life with our family". It was also the first large-scale morning assembly organized in Hong Kong. The morning assembly was broadcasted to more than 800 sites. A number of Sun Fook Kong sites participated in the event which the workers have made a commitment concerning to make their working environment having zero accident.

"Zero Accident Ambassador Award" was established to show the appreciation towards the foremen and the workers for their contributions in keeping the working environment safe. Recently, Mr. Michael Fong, Chief Assistant Secretary of Development Bureau visited the site of "Kai Tak Development - Reconstruction and Upgrading of Kai Tak Nullah Project" and presented the awards to two winners including Mr. Tai Pui Kin and Mr. Law Chung. Mr. Tai Pui Kin, foreman of the Group shared his winning tips, "I always stick to my post, follow the protective measures and wish to be a role model of the workers. Also, taking care of our colleagues and giving them reminders can reduce the chances of accidents happening, these are pivotal in building a harmless working environment."

Mr. Michael Fong, Chief Assistant Secretary of Development Bureau (middle) issued the "Zero Accident Ambassador Award" to Mr. Tai Pui Kin, foreman of the Group and Mr. Law Chung, worker of the project "Kai Tak Development - Reconstruction and Upgrading of Kai Tak Nullah Project".

Mr. Michael Fong, Chief Assistant Secretary of Development Bureau (middle) issued the "Zero Accident Ambassador Award" to Mr. Tai Pui Kin, foreman (left) and Mr. Law Chung (right), worker of the project "Kai Tak Development - Reconstruction and Upgrading of Kai Tak Nullah Project".

Sun Fook Kong had organized the Zero Accident Ambassador Award Presentation Ceremony and Mr. Patrick Lee, Safety Director of the Group was invited to present the awards to the winning front-line workers, and then the management and the award winners posed a photo after the award presentation ceremony.

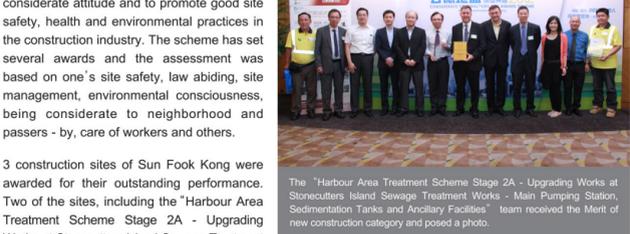

Team work is vital for construction works. Another award-winning worker, Mr. Law Chung expressed, "Construction work is never a one-man game, and we place importance to collaborate with our colleagues, pooling the wisdom and efforts of everyone. Working with safe and collective effort, we can definitely work more with less."

Other than Mr. Tai Pui Kin and Mr. Law Chung, more than 20 front-line workers of the Group were awarded. Sun Fook Kong had organized the Zero Accident Ambassador Award Presentation Ceremony and invited Mr. Patrick Lee, Safety Director of the Group to present the awards to all winners. They were encouraged to continue to do safely and to set a good sample to other colleagues.

Contractors are responsible for promoting safety working culture and building workers' safety awareness. Sun Fook Kong is now and will continue playing a supportive role in such activities. Besides, Sun Fook Kong will work more in keeping our workers' health and safety by providing them a safe working environment and work cheek by jowl with the workers in building a "zero accident" working environment.

## Mr. Tse Kai Kin, Planning and Design Outstanding Sun Fook Kong received the "Outstanding Young Lu Ban Award 2013 (Engineering Management Division)"

"Young Lu Ban Award" ceremony was successfully held on the 20 July 2013. It is co-organized by Kwong Yuef Tong Hong Kong, Construction Industry Council and the Vocational Training Council. Mr. Kenneth Tse Kai Kin, Planning and Design Engineer of the Group, was awarded the "Outstanding Young Lu Ban Award (Engineering Management Division)" in the ceremony.

All 15 award-winners posed a group photo in the "Young Lu Ban Award" ceremony.

Lu Ban was the ancestral master of engineering in China. The award named "Lu Ban" to pay tribute to his spirit and to recognize the outstanding performance of the youths in the construction industry. Moreover, the award was set to attract more youngsters joining the industry. The assessment was based on the candidates' working performance, continuation of further education, work and safety performance.

The award-winner, Mr Kenneth Tse Kai Kin was working full-time while receiving part-time education for a decade. After graduating from secondary school, he continued his studies for Diploma in Civil Engineering Supervision in Construction Industry Council, and then he got the Higher Certificate in Civil Engineering from IVE. Recently, he graduated from the Hong Kong Polytechnic University with a Degree in Building Engineering and Management. Apart from learning, he also applies his knowledge at work. Kenneth started working as a Technician Apprentice, and then was promoted to an Assistant Engineer and he worked as an Engineer in 2010. He currently employs as a Planning and Design Engineer.

Secretary for Development- Mr. Chan Mo Po, MH, JP awarded Mr. Kenneth Tse Kai Kin with the award of "Outstanding Young Lu Ban 2013 (Engineering Management Division)".

Mr. Kenneth Tse Kai Kin delivered a speech in the ceremony.

Mr. Ho Chi Wang, the Senior Project Manager of the Group and the nominee of Kenneth believes that his perseverance and hard-working attitude are the keys to his success. Mr. Ho said, "Kai Kin is an all-rounded person. Not only working on the planning and design of the project, he also involves in the site management works and communication with our subcontractors. He deserves the award as he works conscientiously and having great cognition in construction."

Mr. Kenneth Tse Kai Kin was thankful for the appreciation, "I am deeply blessed and encouraged since my hard work is recognized. And I would like to express my gratitude towards my company for giving me the chance of participating in different major projects such as recent in Kai Tak Development and Hong Kong Theme Park Extension, which help me a lot in gaining knowledge." There are new challenges in every project; Kenneth upholds the heart of serving the public, making his endeavors to overcome the difficulties.

Mr. Kenneth Tse Kai Kin encourages the youth to join the construction industry; he said, "The construction sector in Hong Kong is booming and the industry requires lots of expertise. All you then are having a studious mind, maintaining one's devotion to duty and not to slip away a single chance, then successes will definitely yours."

## 3 Construction Sites of Sun Fook Kong were awarded in the Considerate Contractors Site Award Scheme 2012

3 construction sites of Sun Fook Kong were awarded in the Considerate Contractors Site Award Scheme 2012. The Award Presentation Ceremony was held at the Hong Kong Convention and Exhibition Centre on 31 May 2013.

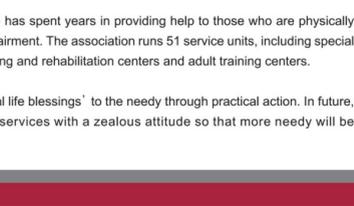

The team "Term Contract for Alterations, Additions, Maintenance and Repair of Buildings and Lands and Other Properties for which the Architectural Services Department (Properties Services Branch) is Responsible for the Government of the HKSAR (Designated Contract Area - Hong Kong Island Western, Southern & Lantau Island)" received both the Merit Award and the Outstanding Environmental Management & Performance Merit Award of repairment, maintenance, alteration and addition works category.

The Considerate Contractors Site Award Scheme is co-organized by the Development Bureau and the Construction Industry Council which aims to boost the building of a responsible and considerate attitude and to promote good site safety, health and environmental practices in the construction industry. The scheme has set several awards and the assessment was based on one's site safety, law abiding, site management, environmental consciousness, being considerate to neighborhood and passers-by, care of workers and others.

3 construction sites of Sun Fook Kong were awarded for their outstanding performance. Two of the sites, including the "Harbour Area Treatment Scheme Stage 2A - Upgrading Works at Stonecutters Island Sewage Treatment Works - Main Pumping Station, Sedimentation Tanks and Ancillary Facilities" and "Kai Tak Cruise Terminal Development - On-shore Sewage Collection, On-shore Fresh Water Supply, and Fire Hydrant Water Supply Systems" received the Merit of the new construction category; while "Term Contract for Alterations, Additions, Maintenance and Repair of Buildings and Lands and Other Properties for which the Architectural Services Department (Properties Services Branch) is Responsible for the Government of the HKSAR (Designated Contract Area - Hong Kong Island Western, Southern & Lantau Island)" received both the Merit Award and the Outstanding Environmental Management & Performance Merit Award of repairment, maintenance, alteration and addition works category.

As a social enterprise, Sun Fook Kong shall strive to enhance further its site safety and environmental practices and shall continue to take effort to reduce the risks to the public and workers, to mitigate nuisances and to protect the environment with an aim to create more considerate construction sites in future.

The "Harbour Area Treatment Scheme Stage 2A - Upgrading Works at Stonecutters Island Sewage Treatment Works - Main Pumping Station, Sedimentation Tanks and Ancillary Facilities" team received the Merit of new construction category and posed a photo.

Another Merit of new construction category winning team, "Kai Tak Cruise Terminal Development - On-shore Sewage Collection, On-shore Fresh Water Supply, and Fire Hydrant Water Supply Systems" posed a photo in the ceremony.

## Voluntary Program 2013 - Renovation of Jockey Club Bradbury Wah Sum Care Centre - Repainting of Interior Wall

Sun Fook Kong is committed to encouraging staff to serve and care for the community. In May 2013, Sun Fook Kong and its subcontractor Cordial Engineering Company co-organized the "Voluntary Program 2013 - Repainting of the interior wall paint of the Jockey Club Bradbury Wah Sum Care Centre". Nippon Paint (HK) Company Limited was the paint sponsor. There were over 80 volunteers taken part in this one-month service to repaint the interior wall of the Jockey Club Bradbury Wah Sum Care Centre which provides services to the disabled.

A group photo was taken on the completion of the repainting work.

The objective of the volunteering is to serve the needy with the technical skill and knowledge. Sun Fook Kong hoped to improve the facilities in the centre so as to ameliorate the living conditions of those who were served. The participants utilized their technical knowledge in building and maintenance. Friends and relatives of Sun Fook Kong staffs, as well as sub-contractors were also invited to participate with an aim to enhance the building-up of team spirit.

Mr. Chan Chak Fai, Project Manager of Sun Fook Kong, and Mr. Tai Yi, Director of Cordial Engineering Company were invited to demonstrate the proper painting skills to all volunteers. Mr. Chan said, "We are glad to be here teaching the volunteers. Through the provision of guidance to them in finishing the task, we hope that they can apply the skills in their daily life in future."

Mr. Tai Yi, Director of Cordial Engineering Company was pleased to participate in this meaningful event, he said, "Although there were some bad weathers encountered during the course of the work, the collaboration of the team swept away the problem."

Mr. Tai Yi, Director of Cordial Engineering Company was demonstrating the painting procedure.

Senior Management of the Group, including Mr. Kwok Chi Wah, Project Directors (left), Ms. Tang Yuen Wah, Senior Administration Manager (middle) and Mr. Chau Yu Wah, Senior Safety Manager (right), had participated in the volunteer activity.

Sun Fook Kong, Cordial Engineering Company and Nippon Paint (HK) Company Limited were highly commended for their contributions in a presentation ceremony that hosted by the Spastics Association of Hong Kong. Ms. Yu Yat Wah, Chairlady of the Jockey Club Bradbury Wah Sum Care Centre expressed, "We would like to express our heartfelt thanks to all participants for their thoughtful planning and their efforts made in the service and it means a lot to us. The environment of the centre is greatly improved as well as the living standard of the disabled."

The Spastics Association of Hong Kong (SAHK) has spent years in providing help to those who are physically and mentally challenged due to neurological impairment. The association runs 51 service units, including special schools, sheltered workshops, dormitories, nursing and rehabilitation centers and adult training centers.

The vision of the voluntary event is to give a 'real life blessings' to the needy through practical action. In future, Sun Fook Kong will organize more volunteer services with a zealous attitude so that more needy will be benefited.

Mr. Tai Yi, Director of Cordial Engineering Company was teaching the volunteer.
